### ACCREDITED AND HIGHLY SECURE STORAGE

Red Star Forwarding and Logistics makes use of 'Base de Baronville SA', a fully accredited and entirely secure storage facility close to the major European seaports. The 200+ hectare site is licensed to store explosives of all hazard divisions and compatibility groups (including all kinds of ammunition such as mortars, grenades, bombs, missiles, etcetera).

The 25.000m<sup>2</sup> storage facility features 137 storage bunkers, each with space up to 45 tonnes NEQ (TNT equivalent) of IMO Class 1.1, and of course the very latest security and surveillance technologies. It is guarded round the clock by accredited and armed patrols.

### HANDLING EXPLOSIVES IN BELGIUM

Red Star Forwarding and Logistics is an established value in secure storage and transport, with expertise in the full scope of highly sensitive global logistics. As Belgium is a small country, transport to and from Base de Baronville SA to one of the three international seaports and onwards, making it an ideal connection to anywhere in the world.
