Integration to existing ecosystem

Can be installed as an add-on to bring enhanced security for communications

Trusted supplier

75,000+ users in government, military, utilities, medical, public safety, and business

Elements of the Solution

Bittium SafeMove® Mobile VPN

Highly secure and seamless connectivity and remote access

- › Zero-click connectivity and always best connected
- › Always-on, cannot be bypassed by apps or user
- › Seamless roaming
- › Session persistent
- › Standards compliant
- › Strong authentication
- › Interoperable

Bittium Secure Call™

End-to-end encrypted voice, video, and messaging

- › Quantum-safe: combines classical and PQC cryptographic algorithms
- › Safeguard your sensitive conversations and data with end-to-end encrypted chat, calls, attachments, group calls, video calls, group video calls, and message classification and acknowledgement
- › Validated contacts only

Bittium SafeMove® EMM

Easy and efficient control over device fleet

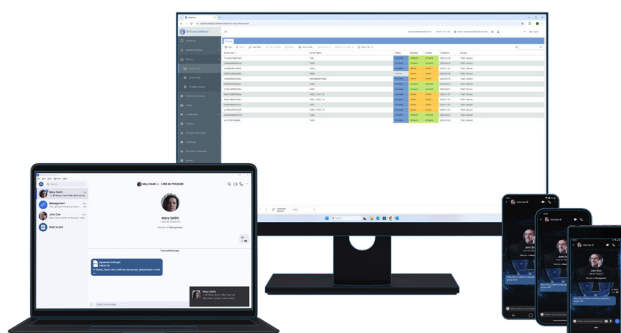

- › Manage your whole device fleet with given security policies from a single platform
- › Instantaneous remote policy update (push)
- › Remove wipe, lock, and password change
- › SafeMove Mobile VPN policy management and Secure Call account management
- › Application management via own enterprise app library. Optionally via Android Enterprise for Android devices.
- › Mass provisioning by operators, or self-provisioning by end-users

Bittium SafeMove® Analytics

Intelligent tool for analyzing device and connectivity performance

- › Insights and understanding about the performance of the wireless service provider
- › Valuable information for troubleshooting
- › Helps to improve productivity and user experience
- › Possibility for tailor-made reports
- › Online, real-time browsing of current and historical data
- › Easy to use and dynamic web UI

Software security not enough for your needs?

Combine the software elements with ultra secure Tough Mobile smartphones to benefit from certified, tamper-proof security – built from the ground up for the strictest requirements.
