INDUSTRIAL CONSTRUCTION & AUTOMATION

PRESENTATION

HISTORY & RESSOURCES

- ❑ Industrial specialists since 2000
- ❑ 4 Engineers and 6 technicians
 - 3 Industrials electromechanics engineers
 - 1 Industrial automation engineers
 - 4 technician electricity & automation specialist
 - 2 technician electromechanics specialist
- ❑ 400 projects realised over the past 25 years.

CASE : CUSTOMIZED MACHINES

A row of industrial machines, possibly for material testing or manufacturing, arranged in a factory setting. The machines are blue and grey, with digital displays and control panels. They are mounted on a wooden surface, and various tools and components are visible in the background.
